

CIEC Outdoor Ethics and Conservation Committees present

SOAR with Conservation

Merit Badge Classes
Saturday, April 6, 2024
8am-3pm
\$30

Includes Lunch & 1.5 Conservation hour Service Project

Jurupa Mountains Discovery Center

7621 Granite Hill Drive, Jurupa Valley, CA 92509

Scouts, BSA

Scouts can choose to take up to 2 Merit Badges workshops required for the Distinguished Conservation Service Award plus work on a conservation project for rank advancement credit:

- *Geology (all day)
- *Nature (all day)
- *Insect Study
- *Archeology (all day)
- *Soil and Water Conservation (all day)
- *Fishing (all day)

****Below are some suggested pre-work to have completed (be able to show proof: pictures, video, final project) before attending the SOAR Event. Parents can sign a letter confirming family discussions only. Not completing these requirements might result in a partial blue card. Some merit badges cannot be completed in a day, so a partial will be given.**

Fishing: #9,10

Geology: #5

Nature: #4 – use iNaturalist to identify unknown species

Soil and Water Conservation: #7

Archeology: #4,11

Insect Study: #5, 10

*****Merit Badge Worksheets** are helpful tools for the scouts to list, draw, or plan their merit badge requirements. The worksheets do not replace discussion or hands-on requirements and are not considered proof of completing a requirement.

(Participants must bring with them a signed permission slip and current BSA medical Forms Parts A and B. More information once enrolled.)

To Register for this event and sign up for your Merit Badges, please go to www.IESCOUTS.org and click on 'Events' and look under 'April' for the SOAR option.
